## DIAGNOSTIC IMAGING

Congratulations! You have taken the first step toward entering a quality educational program that will prepare you to work in the health care field.

The Diagnostic Imaging program is designed to provide qualified technologists for Diagnostic Imaging departments of hospitals and clinics. Students are taught the fundamental principles underlying all phases of Radiologic Technology. The Program is accredited by the Joint Review Committee on Education in Radiologic Technology in collaboration with the Commission of Accreditation of Allied Health Education Programs. Upon graduation, the student is eligible to apply to take the registry examination of the American Registry of Radiology.

### **Diagnostic Imaging Purpose & Mission Statement**

WSCC Diagnostic Imaging Program's mission is to provide a quality education that enables students to develop the knowledge and skills necessary for entry proficiency as a radiologic technologist and continued growth as a professional. The Associate Degree in Diagnostic Imaging provides the best mechanism to enter basic Radiologic Technology practice and obtain an educational background for continued professional development.

### **Program Goals & Outcomes**

1. The Diagnostic Imaging Program will provide a quality education.
  - 1.1 The program provides an education that promotes student success and retention.
  - 1.2 The program provides an education that prepares graduates to be successful on the ARRT Registry Exam.
  - 1.3 The program produces a graduate who is prepared to enter the workforce.
2. Diagnostic Imaging graduates will possess the knowledge required to function as a beginning level radiologic technologist.
  - 2.1 Graduates will possess the knowledge to pass the ARRT Licensure Examination.
  - 2.2 Students will demonstrate appropriate problem solving and critical thinking.
  - 2.3 Graduates are prepared to perform as entry level practitioners.
3. Diagnostic Imaging graduates will demonstrate competent basic skills in their radiologic technologist practice.
  - 3.1 Graduates will be able to adequately perform routine examinations.
  - 3.2 Graduates will be able to produce films of diagnostic quality.
  - 3.3 Graduates will provide a high standard of patient care to all patients.
  - 3.4 Graduates will demonstrate appropriate communication skills.
4. Diagnostic Imaging graduates will continue to grow as professionals
  - 4.1 Students and graduates will conduct themselves in an ethical and professional manner.
  - 4.2 Graduates advance in the profession through continued formal and informal education.
  - 4.3 Graduates participate in Professional organizations.
