Wallace State Community College  
Health Science Division

Policy on Drug and Alcohol Testing of Students Enrolled in Health Professional Program

Wallace State Community College supports the concept of a Drug Free Workplace and prohibits the unlawful manufacture, distribution possession or use of a controlled substance on any property owned, leased or controlled by the college or during any activity conducted, sponsored, authorized by or on behalf of Wallace State Community College. The college prohibits any form of on-campus (or campus affiliated) use and/or possession of illegal drugs, drug paraphernalia, or alcoholic beverage by students, which is in direct violation of local, state, and federal law. Students found to be involved in any of these activities are subject to disciplinary action.

Education of Health Professional students at Wallace State Community College requires collaboration between the college and clinical agencies. Education of these students cannot be complete without a quality clinical education component. The College shares an obligation with the clinical agency to protect the agency’s patient to the extent reasonably possible from harm due to students who are under the influence of illegal drugs or alcohol while in the clinical agency.

The College wishes to ensure that the health and safety of students and patients are not compromised and that clinical affiliation agreements exist to provide students with quality clinical education experiences. Therefore, it is the policy of Wallace State Community College-Hanceville that students enrolling in health profession programs submit to drug testing. This testing can be announced or unannounced and will occur upon admission and annually thereafter, for cause or at random intervals. This policy only authorizes drug testing of students who voluntarily choose to enroll in health professional programs at the college. Any student enrolling in a health professional program will be required to submit to such testing.

GUIDELINES FOR DRUG TESTING OF HEALTH PROFESSION STUDENTS

I. PERSONS TO BE TESTED

Any student who is accepted into any Health Program at Wallace State College-Hanceville will be required to submit to annual drug testing.

II. TYPES OF TESTS TO BE PERFORMED

A. Drug testing will occur prior to clinical placement and annually thereafter. Only drug tests conducted by college authorized agencies will be accepted. Cost of drug testing will be paid from student fees collected each semester.
B. In addition to annual drug testing, further testing may be required of the student for cause or at random intervals and may be either announced or unannounced. This testing will be required at the discretion of the college or the clinical agency. Cost of drug testing will be paid from student fees collected each semester.

III. DRUGS TO BE TESTED

All students will be tested for alcohol and the following ten (10) drugs: amphetamines, barbiturates, benzodiazepines, cocaine metabolites, marijuana metabolites, methadone, methaqualone, opiates, phencyclidines and propoxyphene. Testing for additional substances may occur based on clinical affiliation agreement requirements.

IV. CONSENT TO DRUG TESTING

A. The student must provide written consent to provide specimens for the purpose of analysis. If the student is under eighteen (18) years of age, the student's parent or legal guardian must sign the drug testing consent form in addition to the student. The signed consent must be returned to the program director of the health program.

B. The signed consent form will be maintained in the student permanent record. A copy of the consent form will be maintained with the program director.

C. Students have the right to refuse to consent to drug testing. However, students who decline will be refused access to clinical education facilities and will be unable to achieve the required clinical experiences and objectives of the program. Refusal to submit to drug testing will result in dismissal from the health program.

V. SPECIMEN COLLECTION

1. The collector shall be a licensed medical professional or technician who has been trained and certified for collection in accordance with chain of custody and control procedures. This person cannot be a college employee.

2. The designated collection site and specimen collection procedures must be secured in accordance with chain of custody and control procedures. Security during collection may be maintained by effective restriction of access to the collection materials and specimens.

3. When the student arrives at the collection site, the collector shall ensure that the student is positively identified as the individual selected for testing. This identification will be done through the presentation of photo identification (driver's license with picture). If the student's identity cannot be established, the collector shall not proceed with the collection until such identification can be made.
4. The student will complete and sign the vendor-provided chain of custody/consent form for the collection.

5. If the student is unable to provide an adequate specimen during the collection process, another collection time will be scheduled. Students will not be allowed into the clinical setting until negative results are received by the program director.

6. Students may be excused from announced or unannounced drug testing only under the most extreme circumstances (e.g., illness, family emergency). The student will be required to provide written verification for such absences. Approval of a verifiable absence is the responsibility of the program director. Students will have to complete the drug testing process before being allowed to attend or return to the clinical agency.

VI. DRUG TESTING LABORATORY

Drug testing for Wallace State Community College Health Science Division students can only be conducted by the college approved vendor. Only laboratories certified by the U.S. Department of Health and Human Services (HHS) under the National Laboratory Certification Program can be used to perform drug testing analysis.

Students enrolled in programs offered totally online or through other distance modalities and who live more than 75 miles from the college campus will contact their respective program director to identify approved alternate drug testing laboratories. Alternate drug testing laboratories will be required to meet the standards set forth in the college’s guidelines. Costs of testing at alternate sites above the college’s fee structure will be the responsibility of the student. Approval of any alternate drug testing sites must be received prior to testing. Failure to receive approval will result in having to submit to additional testing at an approved site. Student fees will only be used for payment to approved testing sites.

VII. MEDICAL REVIEW OF POSITIVE DRUG TEST RESULTS

A. All specimens identified as positive on the initial test shall be confirmed by the testing laboratory. Any positive test result will be reviewed by the Medical Review Officer.

B. A Medical Review Officer (MRO), who shall be a licensed physician with knowledge of substance abuse disorders, shall review and interpret positive test results. The MRO shall:

1. Examine alternate medical explanations for any positive test results. This action may include conducting a medical interview and review of the student's medical history or review of any other relevant biomedical factors.

2. Review all medical records made available by the tested student when a confirmed positive test could have resulted from legally prescribed medication. Prior to making
a final decision on the results of the confirmed positive test, the MRO shall give the student an opportunity to discuss the results. The MRO shall contact the student directly to discuss the results of the test.

VIII. REPORTING OF DRUG TEST RESULTS

A. Written notification indicating either a positive or negative drug screen shall be provided to the Dean of Health Sciences or health program director. Test results will not be released to any individual who has not been authorized to receive such results. Students shall not be allowed to hand deliver any test results to college representatives. Notification of drug screening results can only be delivered in a manner that insures the integrity, accuracy and confidentiality of the information. Wallace State College may refuse to accept any test result that does not meet the requirements of the policy and guidelines.

B. Whenever possible, report of drug screening to clinical affiliates will be handled by aggregate data reporting. The clinical agency will be notified of individual student drug screening results or provided with copies of drug screening results only when required by clinical affiliation agreement.

C. Negative test results must be kept on file for one year after the student's last date of attendance at the college. Positive test results must be maintained on file for five years after the student's last date of attendance at the college.

IX. PENALTIES FOR A CONFIRMED POSITIVE DRUG TEST OR REFUSAL TO BE TESTED

A. Positive Test
A student with a positive drug test will be dismissed from the health program. A grade of "F" will be recorded if the student does not officially withdraw.

B. Refusal to be Tested
A student’s refusal at any point to be tested for drugs will result in permanent dismissal from the health program and forfeiture of any health scholarship. The program director shall be notified of any refusal to be tested.

C. Failure to Appear
A student who fails to appear for drug testing will be given an opportunity to explain the failure to appear. If the student agrees to be tested, another collection will be scheduled. If the student fails to appear for the second time, the failure to appear shall be treated as if a positive test result had occurred. The program director shall be notified of any failure to appear.
X. PUBLICATION OF POLICY

The college shall include the policy and procedure for Drug Testing of Health Profession Students in the college catalog, on the college's website, in the student handbook for each program, and other appropriate college publications to ensure adequate notice and distribution.

Revised 9.26.07
Health Science Division
CONSENT TO ALCOHOL AND DRUG TESTING

I have received and carefully read the Drug testing policy and fully understand its contents. I understand that by enrolling in a health professional program, I will be required to submit to mandatory drug testing. I voluntarily agree to submit to specimen collection for analysis for alcohol and drug use. I understand that my continued participation in the healthcare program is conditioned upon satisfaction of the drug testing requirement through the college designated vendor. **I further understand that if I have a positive drug screen that I will be dismissed from the program. A grade of “F” will be recorded for the course(s) if I do not officially withdraw.**

I further agree and consent to the disclosure of results of drug testing and their release to the Dean of Health Sciences, program director and appropriate clinical representative(s) in order that my eligibility to participate in the required clinical activities can be determined.

ACKNOWLEDGMENT OF RECEIPT OF REVISED DRUG AND ALCOHOL TESTING POLICY

I certify that I have received a copy of Wallace State Community College’s Drug Testing Policy and Guidelines 2007 Revision. I have read and understand the requirements of the policy and guidelines. I understand that this revised policy goes into effect January 1, 2008 and that both new and existing students will be required to meet the revised standards of drug screening prior to attending Spring semester clinical rotations.
