

FAST TRACK FOR INDUSTRY

PO Box 2000/ 801 Main Street NW
Hanceville, AL 35077-2000

<http://www.wallacestate.edu/programs/dual-enrollment>

General Information:

Fast Track for Industry is a joint partnership between Wallace State and the Cullman County school systems. FTI offers high school juniors and seniors an opportunity to simultaneously enroll in secondary and postsecondary coursework on the campus of Wallace State. The courses meet state requirements for high school graduation while also providing the general education requirements for the certificate and associate degree programs. Students will be enrolled full-time at the high school on the community college campus.

Admission Requirements:

Student must complete the Fast Track for Industry application and submit it along with all required documents to his/her high school counselor. The school administration will then recommend the student for the program if the student has met all necessary criteria. The counselor will complete the remainder of the application and submit the application along with an official high school recommendation, transcript, and the Graduation Requirements Check List to the Extended Learning Department / Fast Track and Dual Enrollment.

General entry qualifications will include the following:

- GPA of 2.5 or higher
- Accuplacer Placement Exam or Comparable ACT scores – 18 in English, 20 in math and reading
- Incoming high school junior or senior

Required Documents:

Student

- Residency Form
- Proof of ID
- Placement Test or comparable ACT

Counselor

- Student's Current Official HS Transcript
- Recommendation
- Graduation Requirement Checklist

Cost of program:

Tuition for select programs will be paid using WFD funds (Career Technical Dual Enrollment Scholarship). The scholarship pays for **two** classes each semester up to a maximum of 6 college credit hours as long as funds are available. Students may be responsible for costs associated with books, materials, and supplies needed for these programs. Please note that eligible programs are determined by the State Board of Education and the local workforce development agency and are subject to change. Students who choose to enroll in programs which are not included on this list will be responsible for all tuition, fees, books, materials, and supplies. Wallace State was selected to participate in an experimental pilot program regarding Federal Pell Grants. The experimental pilot program is limited to Alabama public high school students in the WSCC service area. Qualified students will be able to use Pell Grant funds beginning fall semester. WSCC graduation fee \$30.

Continuous Eligibility:

Students who meet the criteria for initial admission to a Dual Enrollment for Dual Credit program as specified in the ACCS Procedure for Dual Enrollment for Dual Credit for High School Students, Section 2, will remain in continuous eligibility as long as a grade of "C" or better in all attempted college courses is earned. Students who fail to meet this minimum grade requirement or who withdraw from a course will be suspended from the program for a minimum of one term. The one term suspension may not be served during the summer term. The student may not re-enroll until the suspension has been served. For re-entry, the student must reapply to the program and must meet the minimum (unweighted) grade point average of 2.5 on a 4.0 scale. Students re-entering Fast Track will be responsible for cost for tuition, fees, books, materials, and supplies.
